Correlation between SP015 Grade Point and PNGS1

Regression equation	$y = 0.79x + 0.58$
Pearson correlation coefficient	$r = 0.80 \rightarrow$ strong correlation
R <sup>2</sup> value (coefficient of determination)	0.64
There is a strong positive relationship between students' SP015 performance and their PNGS1.	

## Conclusion:

The analysis shows that most students performed well in SP015, with high average grade points and a strong pass rate across classes. A moderate positive correlation between SP015 results and overall GPA suggests that success in SP015 aligns with general academic performance. These insights support the importance of maintaining instructional quality and targeted support for classes with more varied outcomes.
