

Article Template

ABSTRACT

Length: 150–300 words only. The abstract/article should include the research purpose, methodology, main findings, implications and conclusion. Font Arial, size: 10.

Keywords: 3–5 words.

INTRODUCTION

1.0 line spacing.

Include the problem statement, research objectives, research questions and literature review.

METHODOLOGY

1.0 line spacing.

Include research design, sampling, instruments, data collection procedures and data analysis.

RESEARCH FINDINGS

1.0 line spacing.

Answer the research questions. Contains relevant tables/figures, interpretations based on the research findings. Includes accurate facts, interpretations or calculations.

Graphics (if any): Tables/figures should be numbered sequentially, placed above the table or figure. Explanations or descriptions should be written after the table/figure. The first letter of each word in the table/figure title should be capitalized. The font size used in tables/figures should be Arial, 10.

DISCUSSION AND CONCLUSION

1.0 line spacing.

Relate the findings to the research questions.

Relate the research findings to previous studies.

Discuss the implications of the research findings.

Draw conclusions based on the research findings and suggest recommendations for future research.
